EXPERIENCE

Tata Consultancy Services (TCS) – Software Engineer **Apr 2025 – Present**

- Developed and maintained enterprise customer data management solutions on the **Reltio MDM** platform using **Java, React.js, Node.js, REST APIs, Maven** and AWS services.
- Identified and resolved a **critical production defect** in the **IsPortal customer flag** during account merging, eliminating merge failures that impacted customer records across the platform and restoring data integrity.
- Investigated backend business logic, implemented the solution in Java, validated the fix, and deployed production changes to **AWS Lambda** and the Search Match LCA environment.
- Engineered bidirectional relationship synchronization using **React.js** and **Node.js**, automatically creating reverse entity relationships and preventing duplicate relationship creation during customer linking workflows.
- Implemented validation rules before ERP synchronization, ensuring accurate relationship processing prior to integration with **GLPROD** for ERP ID generation.
- Designed and developed a similarity-based customer search enhancement that computes and displays dynamic match percentages using multiple attributes including **Name, Address, ZIP Code, Country, State and UCM ID**, improving duplicate record identification.
- Deployed frontend releases to **Amazon S3** using **AWS CLI** and AWS Console while supporting production application releases.
- Collaborated with cross-functional development and QA teams to investigate production issues, perform root cause analysis, validate fixes, review code, and deliver production deployments through Git-based workflows.

PROJECTS

AI Chat Platform | Next.js, TypeScript, MongoDB, Gemini API [Deployment - GitHub]

- Developed a production-ready AI assistant featuring ***Google OAuth authentication***, email verification, persistent chat history, and secure user session management.
- Integrated ***multi-model AI support*** (Gemini, OpenAI) with a ***persistent memory system*** using mem0AI, enabling context-aware conversations across user sessions.
- Engineered ***multi-format file processing*** supporting images, CSV, DOCX, and text files via Cloudinary, with real-time streaming responses, Markdown rendering, and syntax highlighting.

TECHNICAL SKILLS

Languages: C++, Java, JavaScript, TypeScript
Frontend: React.js, Next.js, Redux, Tailwind CSS, HTML5, CSS3
Backend: Node.js, Express.js, REST APIs, JWT, NextAuth.js, Google OAuth
Cloud & DevOps: AWS Lambda, Amazon S3, AWS CLI, Docker
Databases: MongoDB, MySQL
Tools: Git, GitHub, Eclipse, Postman, VS Code, Vercel, PuTTY
AI & Integrations: OpenAI SDK, Gemini API, mem0AI, Cloudinary

ACHIEVEMENTS

- **ICPC Asia West Regionalist** (2023) – Qualified for the ICPC Asia West Regional Contest.
- **LeetCode Knight (Rating: 1848)** with a highest contest rank of **509/41,236** in LeetCode Biweekly Contest 175.
- **GATE CSE 2024 Qualified**.
- Solved **1000+ Data Structures and Algorithms problems** across LeetCode, CodeChef, and other competitive programming platforms.

EDUCATION

B.Tech : Computer Science and Engineering (8.4 CPI) **2020 - 2024**
Shri Shankaracharya Technical Campus *Bhilai, Chhattisgarh*
